## Easy Ordering Guide for the Wedding Celebration of

\_\_\_\_\_ and \_\_\_\_\_

### Wedding Date

Let us help you make your special day as unique as the two of you are.

Your invitation is a small but powerful statement about your personal style and gives guests a hint of the theme and formality of the day.

What is style without accessories? In the album is a beautiful accessory section. You will find matching guest books, pens, pillows, unity candles, server sets, garters, and everything else you'll need for your wedding ceremony and reception.

Have you thought about gifts for your attendants? Also featured in the accessory section is an extensive selection of unique gifts to choose from.

Use this ordering guide to help organize your wedding stationery and accessories order. Please ask if you have any questions.

To place your order, follow these steps:

- ✓ Indicate the item number of item you are ordering.
- ✓ Fill in the quantity. Avoid costly short run orders by ordering 25 more invitations than you think necessary for last minute additions or mis-addressed envelopes. All napkins come in multiples of 50. We recommend 3 beverage and 2 luncheon napkins per guest.
- ✓ Indicate the lettering style you would like on your printed items. Choose from the complete selection of lettering styles in the front of the album.
- ✓ Indicate ink color on printed items or foil color on napkins and matches. Complete ink color selection sampled in the front of the album.
- ✓ Indicate verse number. In the front of the album is a selection of verses, you may choose from any of the verses sampled on the invitation ensembles, or you may write your own.
- ✓ If the item has a design, (napkins, matches, etc.) include the design number. See complete selection of designs in the back of the album by the napkin pages.
- ✓ Print the copy very clearly, exactly as you want it to appear on your printed item or accessory.

After filling out this ordering guide, turn it back in to your Carlson Craft dealer and they will process your order!
